**Date:** Tuesday, November 20, 2012 7:37:22 AM

---

Hello Matt,

Yes, we are working on materials that will include a brief presentation on how the different parts of the rule do and don't interact under the new rule and an example site (at a very high level) to demonstrate the interaction. In addition, we are updating rule language regarding "walling off" Part V under MTCA authority that we would like to provide.

My understanding is Dan Opalski and Angela Chung are coming to Ecology tomorrow to meet with my managers on this? Do you have any more information?

**Subject:** SMS materials for next week's meeting

Hi Chance,

I'm sure you're busy with the public comments, but were you or Ivy going to put together some materials to share with us ahead of next week's meeting? If possible, do you think we could have them early next week so we have a chance to review them prior to the meeting? Thanks in advance.
